Index to Mechanical Engineering

Volume 50, January—December, 1928

(D denotes Discussion; C, Correspondence; C. T., Conference Table)

A

A.A.A.S. meets in Nashville 180
Aarau (Switzerland) 168
Abbott, W. L. The modern fire engine (D) 302
Recent improvement in the manufacture of flat glass (D) 780
Abbreviations, scientific and engineering symbols and 797
Acceleration of water flow through an orifice (C. T.) 404
Accumulators, steam 479
steam, electric boilers and 640
steam, thermal storage, high pressure, Kisselbach 860
Accupile storage battery 781
Acids, fatty 471
Ackeret, J. 549, 550
Ackerman, A. J. A water-level gage of the long-distance recording type (D) 615
Acrolein 947
Adams, T. S. The relation between industry and taxation 113
Adaptability, fundamentals and, editorial 252
A.E.G.-Hesselman engine 234
new type of solid-injection double-acting two-stroke oil engine 234
powdered-coal locomotive 480
Aero engine, Armstrong-Siddeley Leopard 709
Aerodynamics, kinematographic studies in 217
Aeronautical engines, commercial, German 319
Aeronautical meeting, Detroit, June 28–30, 1928 731
Aeronautics, Daniel Guggenheim fund for the promotion of, editorial 330
plumbing troubles 855
progress in 48
aeroplane form 390
A.E.S.C. changes procedure 484
further develops its procedure 174
to change its name and constitution 720
William J. Serrill, elected chairman 483
Year book shows American industries making great strides in standardization 565
Aggregates, slag, coke breeze, and clinker as 946
Agriculture, mechanization of 759
power in 754
remodeling (editorial) 806
Aileron, DeHavilland differential 246
Air conquest (editorial) 489
gas and steam metering 167
in solution in household water system (C. T.) 405
jets as aid to smoke abatement (C. T.) 327, 404
power 163
rights 242
standard, 1905, internal-combustion engines 235
water, oxygen, and carbon dioxide in the corrosion of iron 233
motorcycle of the 946
Aircraft carrier, British, "Courageous" 395
carriers, U. S. 280
control of, by supplementary aviettes or alulas 946
safety devices for, flying dangers and 545
the design and supply of naval 611
Airel Diesel engine 948
Airplane contest (editorial) 573
"The rocket (editorial) 573
Airplane, British military 708
Airship-hangar-door trucks, design of (C. T.) 722
Airships, data on 545
Aisenstein, Michael D. 789
Alcohol, Bergius process 630
Alcohol fuel, cheap 630
Alloy, aluminum, Cindal 164
steel in modern locomotives 67
vs. carbon steels (editorial) 807
Alloys, aluminum 164, 473, 684
"Almirante Cochrane," aircraft carrier 396
Alulas, aviettes or, supplementary, control of aircraft by 946
Aluminum alloy, Cindal 164
alloy, "Egalite" 473
alloys 684
bronze, nickel 782
cast irons 238
chrome cast irons 238
Amalgams, coal-oil, colloidal fuels and 710
America's industrial future 195, (C) 487
American Chemical Society, nitrogen symposium 753
American farm problem, the 745
American research in cutting metals (editorial) 406
A-M-L-O lubricating oil 321
A.S.M.E. and railway mechanical engineer (editorial) 969
A.S.M.E. Annual Meeting program (1928) 885
A.S.M.E. Annual Meeting, forty-eighth (1927) 87
Boiler feedwater session 95
Central-station power session 94
First general session 91
Fuels session 93
Hydraulic session—symposium on centrifugal pumps 92
Industrial power session 91
Joint A.S.M.E.-A.S.R.E. session 92
Machine-shop practice sessions 90
Management sessions 94
Materials-handling session 93
Railroad sessions 91
Research session 95
Second general session 94
Session on education and training for the industries of non-college type 93
Session on oil and gas power 95
Session on photography 92
Steam tables research session 93
A.S.M.E. Boiler code committee work, *see* Boiler Code Committee
divisions start national meetings 652
Pittsburgh engineers hosts of 537
publications, concerning certain statements in (editorial) 256
research by committee method (editorial) 179
special research committee on condenser tubes 410
A.S.M.E. Spring Meeting in Pittsburgh 537
Alloys session 542
Applied Mechanics session 541
Central station power session 542
Fuels and heat flow session 539
General session 539
Glass session 541
Hydraulic session 540
Machine shop practice session 541
Management session 539
Materials handling session 541
Railroad session 540
Seamless tubing session 540
Session on education and training for the industries 540
Session on engineering education 542
Technical committee meetings 543
A.S.M.E. Summer Meeting in Minnesota 809
Ammonia condensers, heat transfer in 169
variable-stroke motor 70, 478
Andrews, E. S. 396
Angus, Robt. W. 392
The modern fire engine (D) 301
Andrada, M. J. Fuel handling and ash disposal (D) 457
Anhydrites in cement retardation, note on 694
Annual Meeting (editorial) 97
Meeting, A.S.M.E., forty-eighth 87
Meeting program, A.S.M.E. (1928) 885
Anti-knock, engine 947
Apparatus and instruments, code on, preliminary drop of part 3 (temperature measurement) 792
and instruments, code on, preliminary draft of part 6 (electrical measurements) 940
Applied mechanics (C. T.) 81, 175
mechanics division, responsibility of the (editorial) 570
Apprentice training for draftsmen 461
Apprenticeship organization, principles of 383
Arbitration, A case for (editorial) 729
Arch, concentric—, dam 791
Armstrong-Siddeley Leopard aero engine 709
self-changing gear 952
Ash disposal and fuel handling 454
molten, removing, by hydro-jet system 553
Atkinson cycle 236
rotary furnace 782
"Attitude' and "eccentricity" of bearing 552
"Augustus," Italian motor liner 950
Auto-oxidation, negative catalysis of 947
Automatic hydroelectric power station in Switzerland, Hofen 856
Automobile bumpers, height of 248
finishes, modern lacquer (F) 382
Automotive fuels, synthetic, French and German 855
Aviation in continental Europe 545
military 839
motor, Farman inversed 550–700 hp 69
Aviettes or alulas, supplementary, control of aircraft by 946
Avon Park Station, Florida Public Service Co. 858
Ayres, R. W. 169

B

Baccalaureate degrees (editorial) 252
Bach-Winkler beam formula 166
Back-pressure gages 240
Backed-up mills for continuous rolling 481
Bailey, C. F. Principles of apprenticeship organization (D) 387
Baker, Thomas Stockham. The perils and profits of research 823
Balanced-reaction rudder, Tutin 477
Ball, Herbert J. The textile engineer—his training and opportunities 849
"Banking, live" boilers 633
Bardenheimer, P. 710
Barnard, D. P. Viscosity of lubricants under pressure (D) 230
Bass, A. H. Some common delusions concerning depreciation (D) 619
Batson, Reginald Geo. Cyril 629
Battery, storage, Accupile 781
Battleship bubble, the 713
"Frolicsome" 785

Carriers, aircraft, U. S. ... 321 280
Cars, 1929, mechanical progress in ... 545 951
CARTER, B. C. ... 545 713
CARTY, JOHN JOSEPH receives John Fritz medal ... 396 259
Casein, plastic produced from ... 322 710
Cast iron, aluminum ... 555 238
flanged fittings, notice of change in standards for ... 56 80
gears, critical speeds of (C. T.) ... 470 568, 962
long-turn sprinkler fittings ... 863 244
pipe (250 lb.) flanges and flange fittings ... 483
pipe, McWane method of making, note on ... 855 691
Cast irons, aluminum ... 96 238
Casting pipe centrifugally in green-sand molds ... 708 946
permanent-mold, by vacuum ... 168 555
Castings, centrifugal, for Diesel engines ... 782 165
gray-iron, heat treated ... 290
seasoning (C. T.) ... 805 486
shallow, finishing ways on by grinding ... 631 395
CASTLE, D. W. Apprentice training for draftsmen (D) ... 474 463
Catalysis of auto-oxidation negative ... 710 947
"Caterpillar" drive, conveyor ... 316 954
"Cavendish" (aircraft-carrier) ... 619 396
Cavitation phenomena in hydraulic turbines ... 549
Cement retardation, anhydrites in, note on ... 359 694
Centralized control for safety (editorial) ... 631 490
Central station, Ivry, France ... 788
station, one-man-operated ... 394 858
station operation, what is the limiting temperature in ... 826 137, 465
station power session, 1927 annual meeting ... 143 94
station use of pulverized coal, progress in ... 534 767
Centrifugal casting of pipe, in green-sand molds ... 246 946
castings for Diesel engines ... 165
oil pumps ... 165 789
pump output and characteristics ... 71 77
pump using fluids other than water ... 790
Chain and cable, wrought-iron causes of failure of, note on ... 153 578
conveyors, pulsation in (C. T.) ... 594 250, 569
Challenge of industrial Germany, the economic ... 718 692
Channel, open, law of flow of water in ... 859 392
Chemical nitrogen production, growth of, note on ... 396 518 950 957
CHRISTIE, ALEXANDER GRAHAM. British and American engineers (editorial) ... 96
The peak-load problems in steam power stations ... 914
Chrome-aluminum cast irons ... 238
Chromium plating, mechanical applications of ... 927
Cindal aluminum alloy ... 164
Circular saws, cracks in (C. T.) ... 569
Citröen differential-stroke engine ... 478
Civil Engineers, Institution of, celebrates centenary of charter ... 650

Clapeyron-Clausius equation 318
CLARK, MONTAGUE A. Foreman training (D) 312
Clausius-Clapeyron equation 318
Clearing the international barrier (editorial) 331
CLERK, SIR DUGALD 236
Cleveland's survey of her industrial water supply (editorial) 408
Clinker, slag and coke breeze as aggregates 946
Cluster mills, four-high 481
Coal, a raw material (editorial) 966
carbonizing to produce oil 320
conveyors, pneumatic 951
-dust Diesel engine 711
dust to the cupola 710
fine, partial dehydrogenation of to permit of briquetting 855
fuel, recent developments in 547
industry in the Ruhr, rationalization of 546
industry, powdered coal and the 630
mine, sinking of by freezing process 864
mines, mechanical engineering in 667
mines, mechanization of 954
-oil amalgams, colloidal fuels and 710
oils, oil-engine performance on 473
one pound per indicated horsepower per hour 783
powdered, and the coal industry 630
powdered, annual consumption of 639
powdered, application to marine boilers 630
powdered, burning in Lancashire boilers 397
pulverized, progress in central-station use of 767
pulverizers, unit, practice (C. T.) 568
total distillation on Stein-Tully system at Versailles 233
Coals, middle-western, stoker operating efficiencies with (C. T.) 326
Coated abrasive products, simplified practice recommendation for adopted 643
Code on instruments and apparatus 557
COES, HAROLD VINTON. Some essential principles for budgetary control 143
Cohesion 298
Coining and forging press 715
Coke-breeze concrete 946
breeze, slag, and clinker as aggregates 946
industry and the gas industry 391
-oven gas 391
pig iron without (editorial) 967
Coking, hydrogen 547
process, new 68
College tuition, increased (editorial) 409
why go to (editorial) 572, (C) 724
Colloid Mill Corporation, U. S. 639
mill, Oderberg 639
mills 639
Colloidal fuels and coal-oil amalgams 710
prevention of scale accumulation in boilers 859
COLOMBI, CH. 482
Colorado River problem 431
Combustibility of various kinds of coals 480
Comparison of powdered-fuel and hand-fired-boiler operating results (C. T.) 404
Competition, the new 291
Competitive purchasing and evaluation of proposals for power-plant equipment 521
Compressor, mercury (refrigerating machine) 169
rotary, "Crescent" type 638
rotary, ethyl chloride 638
speed, effect on refrigerating capacity and efficiency of household machines 77
Compression, vapor, and steam-pressure transformation 635
CONANT, W. S. Principles of apprenticeship organization (D) 387
Concentric-arch dam 791
Concerning certain statements made in the Society's publications (editorial) 256
Concrete, coke-breeze 946
sulphur compounds, effect on 946
Condensate, deaeration of 398
Condensation products, manufacture of (C. T.) 82
Condenser, fish found in 714
the most economical (C) 83
tubes, A.S.M.E. special research committee 410
-water conditions, bad, geographical location of 171
Condensers, ammonia, heat transfer in 169
Conference Table, The 81, 175, 250, 326, 404, 486, 568, 644, 722, 803, 867, 962
Connecting rods, diamond boring of 633
Consumers Company, Kalamazoo, Mich., power plant of 397
"Conte Rosso" (aircraft carrier) 396
Continental Motors Corp. shops, machine arrangement in 476
Continuous rolling, backed-up mills for 481
sheet rolling, energy consumption in 864
Control panels, individual, or "cubicles" 399
Conveyor "caterpillar" drive 954
Dacol belt face 954
Conveyors, coal, pneumatic 951
chain, pulsation in (C. T.) 569
Conveyors, coal, pneumatic 951
roller bearings on 321
slag, pallet wheels of 322
Conveying medium, furnace gas as (C. T.) 569
Cook-Schilossky gyroscope 545
Cooling, evaporative 695
generators 634
Cooperative industrial research (editorial) 98
research in oil-engine power (editorial) 407
Copper and brass pipe, bursting pressures of 396
tubes, seamless, electrolytic manufacture of 170
Correspondence 83, 173, 246, 487, 567, 643, 724, 804, 869, 964
Corrosion of iron by water, air, oxygen, and carbon dioxide 233
of metals, investigation with a thermobalance 233
Cost of blowdown of boilers, the 142
Costs of diamond-shaped powdered-coal furnaces 782
of building tools, control of 534
rolling, in various countries 957
Cotton, spinning long-draft (C. T.) 327
textile industry, manufacturing costs in the (C. T.) 645
"Courageous" (British aircraft carrier) 395
Crane hooks, curved beams and 396
jib, and trolley, ball bearings in a 555
Crankshaft stiffness in torsion, formula for 712
Creep of materials 629
"Crescent" type rotary compressor 638
CROCKETT, C. B. Economic aspects of the shipment of materials on skid platforms 937
CROFT, HUBER O. 242
CROSS, C. W. Apprentice training for draftsmen (D) 463

Standard, air, 1905 235
short tube, pressure and shape of the jet in 391
Standards, American, new proposals for, by member bodies of A.E.S.C. 719
for cast-iron flanged fittings, notice of change in 80
in machine-tool design, necessity of recording 124
of thermal efficiency for internal-combustion engines 235
symbolization of (C. T.) 82
Standardization, advantages of 136
of boiler dished heads in respect to internal pressure 240
Starke & Hoffman, extraction engine built by 162
STAUFFER, R. D. 859
Steam accumulator, thermal storage, high-pressure, Kisselbach 860
accumulators 479
accumulators, electric boilers and 640
-boiler terms, reforms in (editorial) 728
boilers, a suggestion for rating 687
boilers, high-pressure 441
chart development, high pressure, report on proposed 156
engine, extraction, Starke & Hoffman 162
engine, marine, reciprocating, application of high pressures to 71
engine, reciprocating, as a modern prime mover 159
engine, the (book review) 733
gas and air metering 167
generator 631
generator installation, a new 284
generators, electric 786
high-pressure, production of, Kroepelin patents on 324
high-temperature and high-pressure, operating experiences with 553
low-pressure, in paper manufacture 398
Nozzles Research Committee, fifth report 707
plant, high-pressure, first industrial in Switzerland 167
power engineering, progress in 32
power stations, peak-load problems in 914
pressure, 1300 lb. 323
pressure transformation and vapor compression 635
pressure transformer (C) 173
pressures, higher (C) 804
research 158
research at M.I.T., progress of 153
research at U. S. Bureau of Standards, progress in 152
research, progress in 151
superheated, boilers for 629
Table Fund, report of executive committee 151
tables research session at 1927 annual meeting 93
